MIDCAREER COURSE

The Midcareer Course was started in 1963 to provide an opportunity for middle-level officers to broaden their professional horizons. The Course has become well-known throughout the Agency as an important aspect of career development as well as a forum for the exchange of views between senior managers from many components of CIA and course participants.

COURSE OBJECTIVES

Upon completion, Midcareer Course participants are expected to have acquired a broadened view and an increased understanding of the intelligence process to enable them to execute their current and prospective responsibilities more effectively. To this end the participants will:

- a. Learn in detail the functions and responsibilities of--as well as the interrelationships among the various components of the Agency;
- b. Obtain an appreciation for current management and organizational theory in order to improve individual effectiveness through an increased understanding of: (1) how organizations function and (2) the various styles of leadership available to managers.
- c. Gain knowledge of the functions and responsibilities of the agencies of the Intelligence Community, interagency relationships, and the DCI's Community role; and
- d. Become acquainted with international issues and global challenges that impact on US foreign policy and intelligence efforts.

0830-0900

Welcome to the

Security Briefing

0900-0930

Course Administration

MUTUAL PERCEPTIONS: THE AGENCY AND US

Today we will consider how you as Midcareerists, see yourselves as employees and how you view the Agency. You will have an opportunity to discuss with your classmates issues of concern which you would like to explore further with the senior Agency officers you will be meeting over the next five weeks.

0945-1015

Understanding Group Behavior: A Managerial Skill

We often find ourselves members of small groups organized for many different reasons. This morning we'll take a few minutes to review some of the elements of small group communication, the roles that can be played by group members, and the possible outcomes of these behaviors.

1015-1130

Team Exercise

This team exercise is designed to surface and bring into focus shared individual concerns and concerns about the Agency that we may explore throughout the next five weeks.

LUNCH

1230-1345

Group Reports to Class

Class

1400-1430

Discussion of Group Behavior

This session will provide an opportunity for class members to evaluate how their group functioned, what roles were observed, and how effective the group was in defining issues for later discussion.

MONDAY, 5 November 1979

1445-1545 Review of Management Process

Over the next five weeks, we are going to be looking at an organization--the Agency--in some detail. This afternoon we'll start our study of organizational theory by reviewing the elements of the management process: organizing, planning, leading, and controlling.

1800 Reception at [redacted] for Mr. McMahon

25X1 Dinner - [redacted]

1930-2130 An Evening with the Deputy Director for Operations - [redacted]

John N. McMahon
Deputy Director
for Operations

Mr. McMahon will share with us his thoughts on the Directorate of Operations and comment on anticipated changes that will help the DDO meet today's challenges.

* This is the first of a series of Evening Discussion Sessions. [redacted] These sessions offer participants a unique opportunity to discuss and debate issues related to the daily classroom reading and presentations. To allow participants to speak candidly, all sessions are "off the record"; comments and remarks of one speaker are not to be quoted to another.

TUESDAY, 6 November 1979

25X1

0800-1000

Review of Management Theories

25

This morning we'll review some of the most important management theories which concern motivating employees toward the accomplishment of organizational goals. You will then participate in an exercise designed to dramatize the effects of several different styles of leadership and to illustrate how different styles of leadership can affect the performance of subordinates.

PHASE I -- THE AGENCY

During the next two weeks you will examine the organization, mission, role, and functions of the Central Intelligence Agency. Most of you have spent your careers in one Directorate, some in one office or division, and even a few in one branch; therefore, our objective in this portion of the course is to open up the Agency to your critical inspection, to broaden your perspectives on the operations of other offices and Directorates, and to offer you new insights into how your job relates to the larger picture of the intelligence process.

Managing Our Personnel Resources

We begin our study of the Agency by looking at the way our personnel resources are managed in order to ensure the most efficient utilization and proper development of Agency employees.

x1

1015-1145 The Agency and Its People Harry E. Fitzwater
Director of Personnel

Mr. Fitzwater will describe and clarify the underlying philosophy of the Agency's personnel management tools--the Annual Personnel Plan (APP) and the Personnel Development Program (PDP). He will describe other matters of personnel management in which the Office of Personnel plays a key role, and tell us about the findings and recommendations of the National Academy of Public Administration. He also will discuss briefly the new Senior Intelligence Service pay system.

LUNCH

1245-1400 An Experience in Discrimination [Redacted] Instructor, Manager, Sales, OTR

25X

Using a cooperative group exercise, participants will gain first-hand impressions of "what it feels like to discriminate and be discriminated against." Participants will also learn the impact of under-utilization of group resources upon successful problem solving. Following the exercise, participants will be asked to share with the group as a whole the knowledge and information they obtained during the exercise.

PHASE II--THE INTELLIGENCE COMMUNITY

Now that you have an appreciation for the issues and problems which face CIA today and an understanding of the organization of the Agency, we turn to the Intelligence Community. Speakers representing most of the other members of the Community will provide us with insights into the problems they face in their own agencies and with respect to each other.

1700	<u>Reception for Mr. Dirks</u>	

The Bureau of Intelligence and Research is a relatively small unit within the Department of State that responds to the policy-oriented political intelligence needs of the Secretary of State. Our speaker will elaborate on this function and describe the Department's relations to the CIA and to other members of the Intelligence Community. He also will address the issue of how policymakers use finished intelligence.

Mr. Dirks will focus on the totality of the Directorate's mission and organization. He will discuss the contribution science and technology has made to intelligence and the probable impact of future technological developments on the Agency's work. He will reflect upon recent organizational changes and the impact of shifting priorities on the collection of intelligence.

PHASE III--WORLD AFFAIRS

The international environment within which the Agency operates has undergone some important changes in recent years. National security as a national objective has required some redefinition; although the Soviet threat remains paramount, new powers and threats are emerging. National welfare in a world of scarce resources and keen economic competition is demanding its share of attention among U.S. international objectives. It is the purpose of Phase III to bring you up-to-date on both the continuing and new concerns affected by world developments, and to suggest the impact of such developments on the Agency's mission.

0830-0930 Film: "Misunderstanding China"

1015-1215	<u>International Economic Developments</u>	<input type="text"/>	

As our world has become more interdependent, there is increasing interest in and concern about international economic problems and trends. Our speaker, former Deputy Special Representative for Trade Negotiations, will analyze and discuss some of the more serious and immediate economic problems which may have significant impact not only on the international scene, but on the domestic scene as well.

LUNCH and Optional
Videotape: "Non-Verbal
Communications"

This 15-minute videotape features a Foreign Service 25 Officer, who offers a wealth of insight into interpersonal and cross-cultural relations.

1315-1415 Videotape: "The Dawn of
the Solar Age"

Solar energy is already being used as a source of limited home and industrial heating, and technologists are working on the first solar power station in space. But first solar energy must be made economically viable, and we must answer questions such as: Who owns the sun and who should collect and distribute its power? The cost of collecting and storing sunlight is high. Can the sun be efficiently harnessed to power the planet? Ways to harness the sun through wind and water energy are explored in this film.

25

We'll pause again this morning to reflect on some of the issues raised during the past week and discuss our thoughts on these important topics.

1030-1215 Intelligence and
the Media

[redacted]

25

The Watergate period signaled a new era in the relationship between the news media and the U.S. Government wherein the media's role became increasingly aggressive and persistent. With Seymour Hersh's November 1974 New York Times article about the CIA, the U.S. Intelligence Community lost its long-standing position characterized as "off limits in the name of national security." Today, our speaker will discuss the changing attitudes of the publishing and broadcasting world toward the U.S. Government--particularly toward intelligence organizations--examine the adversary relationship which exists between the information media and the Executive Branch of Government, and comment on the media's role in and responsibility for reporting classified information.

LUNCH and Optional
Videotape: "Two Cheers
for the CIA"

This thirty-minute tape is a Ben Wattenberg production for the PBS series, "In Search of America," June 1978. The presentation provides a positive look at the Agency.

1330-1430 CIA Public Affairs

Herbert E. Hetu
Special Assistant
for Public Affairs
to the DCI

The Director of Public Affairs for the CIA will explain the Agency's official policy regarding dealings with the news media and publishers. He will discuss the various factors that must be considered in CIA's official and unofficial communications with reporters, writers and publishers.

"Restrictions on Intelligence Activities," 15 September 1978

Intelligence Monograph, The Central Intelligence Agency's Position and Function in American Society: Issues and Arguments, Center for the Study of Intelligence

1300-1400 The Role of the Inspector General

John Waller
Inspector General

The Inspector General is charged with overseeing Agency activities as directed by the DCI, investigating employee grievances, and with supervising audits of expended funds. In addition, the Inspector General assumed further responsibilities as directed by E.O. 12036. Mr. Waller will discuss the functions of his office and describe the type of problems and situations which have arisen in recent months.

1415-1515 CIA in Court

Daniel K. Silver
General Counsel

One of the major problems confronting the Agency today is the requirement to maintain the secrecy of Agency operations in a free society, which often entails defense against challenges in court. Our speaker will highlight the changing legal climate that affects the Agency's operation and security.

1530-1630 The Agency's Relations with Congress

Frederick Hitz
Legislative Counsel

The Agency occupies a unique position in the endemic contest between the Executive and Legislative branches of Government. Our speaker will review Congressional relations, describing the mechanisms responsible for oversight, and will share his impressions of the attitudes in Congress toward the Agency in this time of change.
